Lab: Logic Flows in IDA – Part 1

Do_while

```
#include <stdio.h>
#include <stdlib.h>

int main(int argc, char* argv[])
{
    int i = 0;

    do
    {
        printf("i: %i\n", i);
        i++;
    }
    while (i < 10);

    return 0;
}
```
